Safe to Swim Network Charter Development Meeting

Please join us March 4, 2019 for the next Safe to Swim Network charter development meeting. During this meeting we will be spending much of our time developing the Network and the Work Group goals and committees to be included in our charter.

Remember, to have constructive discussion we ask that you review the draft Safe to Swim Network charter elements. Please submit your questions and suggestions to us by February 28. You can access the Safe to Swim Network charter development documents in this shared folder,

https://drive.google.com/drive/folders/1yrglQS77m2QfSy4B6_3dAbM4tkkEytia.

Some of products to be worked on by the Network future will be to develop tools and visualizations for the My Water Quality Portal, https://mywaterquality.ca.gov/safe_to_swim/index.html. Currently on the portal you will now find a beta version on the interactive Safe to Swim Map. This Safe to Swim map displays bacterial sampling data for coastal and inland monitoring locations over time. The map compares the sampling data and six-week geometric mean to the

statewide bacteria water quality objectives for E. coli and enterococci. The final version of this map will be determined by the Network.

Safe to Swim projects like the one mentioned above benefit from your expertise and experiences and need your involvement. So please join us in our next Safe to Swim Network charter development meeting.

Date and Time: March 4, 2019 1:00 - 3:00 PM
Location: Southern California Coastal Water Research Project
3535 Harbor Blvd., Suite 110
Costa Mesa, CA 92626
Phone: (714) 755-3200

Small Conference Room

Sincerely,
Erick Bures, Karen Black and Alisha Wenzel
Safe to Swim Network and Workgroup Coordinators
